Comments for Public Posting: The West Harbor Modification Project represents a bold vision for the future of San Pedro, and I am excited to see it come to life. Thank you for your leadership and dedication to advancing this important project. This kind of inspired development should be celebrated not delayed. The project owners have invested immense time and treasure to help make San Pedro better and it will ensure the economic security of our harbor area, creating employment and most importantly bring others to our community to enjoy West Harbor and the Port of Los Angeles ! Comments for Public Posting: Council File Number 250781 I respectfully request the City Council deny the appeal filed by Unite Here Local 11 and uphold the Los Angeles Board of Harbor Commissioners' (BOHC) approval of the West Harbor Modification Project, including the certification of the Supplemental Environmental Impact Report (SEIR). The proposed 6,200-seat amphitheater, Ferris wheel and 2,400 additional parking spaces are essential to our waterfront becoming the world-class destination we have worked so hard and long to achieve. Having followed the project closely for more than a decade, I can attest that Los Angeles needs the iconic vision of West Harbor to come to life—a vibrant waterfront destination offering dining, shopping, entertainment, and extraordinary experiences in the Port of Los Angeles. The proposed attractions are critical to realizing that vision. The West Harbor Modification Project alone will support 300 jobs during construction, with labor income of \$24 million and economic output of \$65 million. During ongoing operations, an estimated 230 jobs will be created, with labor income of \$16 million and economic output of \$42 million. The entire West Harbor project will create 1,360 jobs during construction, \$107 million in labor income and \$296 million in economic output. The project will create 1,700 jobs during ongoing operations, with labor income of \$88 million and \$250 million in economic output. Economically, this project will be a major asset to our community. By attracting tourism, creating jobs, and supporting local businesses, it will foster long-term growth and prosperity. The mitigation measures outlined in the Draft SEIR reflect a thoughtful and balanced approach to addressing potential environmental issues while prioritizing sustainability. The Port of Los Angeles has lost thousands of jobs over the last 50 years due to changes in the fishing, cargo handling and ship building industries. Entire sectors of what was once a booming economy have shrunk, been replaced by technology, or have been eliminated altogether. By moving this transformative project forward you will once again help to ensure good jobs return to the Port area. The West Harbor Modification Project represents a bold vision for the future of San Pedro, and I am excited to see it come to life. Thank you for your leadership and dedication to advancing this important project. I truly believe everything I have submitted here in writing.....chris agajanian
