Summary:

On October 21, 2025, your Committee considered a July 15, 2025 ITA report relative to application by PS Southern California One, LLC for a franchise renewal and transfer. According to the ITA, an IT System franchise is an encroachment permit that provides for the interconnection between two or more points in the public rights-of-way (PROW), utilized solely for signal transmission and not to serve any customer within the City. PS Southern California One, LLC, is requesting that the City grant the renewal and transfer of a limited franchise to continue the operation of a telecommunications facility using the City's PROW pursuant to City Ordinance No.184530. That facility will continue to connect PS Southern California One, LLC's buildings located at 1617 Pontius Avenue and 1606 Cotner Avenue, north of Santa Monica Boulevard through an unnamed City alleyway, utilizing six one inch diameter conduits containing four video co-axial cables, one intercom co-axial cable and one keypad 11 conductor shielded cable. After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the recommendations contained in the ITA report and detailed in the above recommendations. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

Government Operations Committee
