Comments for Public Posting: I am deeply concerned that the proposed RV project will negatively impact the safety and quality of life in our neighborhood. Increased traffic from RVs and associated vehicles will make our streets more congested and dangerous for pedestrians, cyclists, and children. In addition, the higher traffic volume could strain local infrastructure and make it more difficult for emergency vehicles to navigate our area safely.

Comments for Public Posting: We live on Kester, near San Jose Elementary, and especially having two children of Elementry age, we do not want this property to turn into an RV park of any sort. It should be used as residential for permanent residence, or even better, would love to see this property used for a neighborhood park for our children and community to enjoy. An RV park would not only introduce more traffic and noise pollution, but constant strangers that we do not feel are appropriate so close to schools, and our fellow neighbors. We vote NO on this becoming any sort of RV park.

Council File No: 25-0843

Comments for Public Posting: I am a resident of Mission Hills. I am writing to strongly oppose Council File 25-0843, which proposes establishing a large RV park within our residential neighborhood. Our community is a quiet, family-oriented area where many of us have worked tirelessly to build a safe and stable environment for our families. We chose to live in Mission Hills specifically because of its peace, safety, and sense of community. Purchasing a home here required years of savings, hard work, and sacrifice something that should be respected and protected, not jeopardized. Introducing a large RV park into this area would fundamentally disrupt the character and safety of our neighborhood. It would bring increased traffic, noise, and potential safety concerns all within close proximity to multiple schools, a church, and family homes. This location is simply inappropriate for such a project. We already face rising crime rates across Los Angeles and the surrounding areas. Allowing an RV park in a residential zone sends the message that the City prioritizes business interests over the well-being of its residents. We are taxpayers, community members, and homeowners who deserve the same protection and consideration as any other neighborhood. This small corner of Mission Hills is our peaceful place, our home. Approving this project would permanently change the character of the neighborhood and diminish our quality of life. Many of us cannot simply relocate; our life savings and families are deeply rooted here. We ask that you please listen to your constituents and protect the integrity of this community. Show us that the City of Los Angeles values its residents, not just revenue. Vote no on Council File 25-0843, and help us preserve the safety, stability, and quality of life that define Mission Hills.
