**Comments for Public Posting:** RVs can contribute to higher traffic volume and noise levels, especially when they are parked for extended periods. This affects the peaceful environment that residents seek in their homes. We need to preserve the tranquility of our neighborhood. Our neighborhood is already dealing with limited parking space. Adding RVs to the mix only makes it harder for residents to park their vehicles, leading to congestion and frustration. We should be looking for ways to improve parking, not add to the problem.

**Comments for Public Posting:** Turning this space into an RV park is so stupid. It will draw so much traffic and the the quality of our neighborhood will take a nose-dive. It is so near an elementary school. It will draw undesirables. Please. Not in our neighborhood!!

**Comments for Public Posting:** I do not approve of a high density RV park being proposed for 10338 N Lemona Ave, Mission Hills. The streets is narrow with parked residential cars and would not accommodate the increased traffic flow. I also would not want this RV Park to become a new Homeless Shelter in regards to mobile home dwellers. This is not a good use for this property. I am also concerned about the effect this could have on our property values

**Comments for Public Posting:** A high density RV park will negatively impact our community. This neighborhood is one filled with families that have been here for quite some time that have stayed as they enjoy the peace and quiet of the neighborhood. An RV park will increase traffic and noise, reduce privacy, decrease safety for our children, and will increase litter in the neighborhood.
