Comments for Public Posting: Your motion is inciteful with the "kidnapping" accusation. Kidnapping is a crime. What about the illegal aliens who have deportation orders, who are wanted in their home countries, who have been convicted of crimes that trigger deportation, have entered in the US multiple times. Are felons? The list goes on. How about citizens who are "Kidnapped" by the LAPD and their cars are impounded? I gather you are okay with illegal aliens paying the fine if their cars are parked in a towaway zone or if LAPD takes them into custody for a number of offenses. You are ginning up the crowd, harboring fugitives, aiding and abetting, and providing financial relieve to illegal aliens.
