**Comments for Public Posting:** We need to cut red tape and build multimodal transit faster and more effectively as a city. The Major Transit and Transportation Construction Traffic Management Committee is slowing things down, increasing the cost and time needed to build all sorts of projects by very significant margins, sometimes by more than six months, sacrificing important long term progress to avoid slight temporary delays to motorists. This needs to stop. Please dissolve this committee.

## Communication from Public

**Comments for Public Posting:** In support of Item #4 (25-0894) We all know that affordable housing is a huge issue in our city. The Transit and Transportation Construction Traffic Management Committee only serves as an impediment to our goal of building new multimodal infrastructure and housing. They always slow down projects under the guise of protecting motorists. Our priority should be people and houses, not cars. Please dissolve this committee.
