**Comments for Public Posting:** Closing down parts of 6th Street in Koreatown to traffic should move forward immediately. More park-like spaces for people to congregate are much needed in parts of the city like Koreatown. As the pop up on Sunday demonstrated, residents really enjoy pedestrianized streets, which also boost local business. The city should moved forward with closing down this section of 6th Street to cars permanently.

**Comments for Public Posting:** I oppose the permanent closure of a street to vehicle traffic to accommodate pedestrians. The advocacy groups that wish to live in these environments should move to a country where people live like this instead of trying to force their ideals on others. I oppose this measure.

**Comments for Public Posting:** We strongly support this item! We need more park-like space for people, especially in Koreatown! A pedestrianized 6th St would help boost foot traffic to local businesses As the pop up that was done on a Sunday a few days ago showed, people in Koreatown love pedestrianized space We encourage 6th St in Koreatown to eventually be pedestrianized permanently.

**Comments for Public Posting:** I strongly support Item #8 - the pilot for pedestrianizing the portion of 6th St in Koreatown. As someone who works in and visits the area regularly, I love this idea since it fills in the gap of public parks and public spaces in the Koreatown. I think it would help boost foot traffic to local businesses and decrease congestion caused by cars by encouraging more people to walk instead. Please consider this pilot.

**Comments for Public Posting:** Yes! We need more park-like space for people. A pedestrianized 6th St would help boost foot traffic to local businesses. As the pop up that was done on a Sunday a few days ago showed, people in Koreatown love pedestrianized space. LA is poor at having these become permanent. Time to do so. We encourage 6th St in Koreatown to eventually be pedestrianized \*permanently\* . Set the right example for all.

**Comments for Public Posting:** To the council of the City of LA, I am highly in favor of this motion to pedestrianize 6th St in Koreatown. As a resident of Westwood, I have seen first hand the incredible positive growth enabled by pedestrianization through the project at Broxton Plaza. In just a short time after implementation, I continued to see more families, businesses and foot traffic all across Westwood Village, it truly feels like the village is coming back to life due to this project. I would like to see the same in Koreatown, and given the recent success of the pop up event there, I believe residents of the neighborhood would as well. Moreover, I hope to see this project become permanent. Thank you, Jonathan Ahituv 90024
