Comments for Public Posting: I strongly support this item. It would be wonderful to have more park space in Koreatown, and it is my hope that this will eventually become permanent.

Comments for Public Posting: My name is Davis Read and I am a member of the Koreatown Community and the Koreatown neighborhood council. I would like to offer my enthusiastic support for this project to improve the lives of the people in my neighborhood. Our community is critically lacking in safe open spaces for pedestrians, and this project would create a community oriented space for all to enjoy. The sixth street corridor is one of the most dense in Los Angeles, with dozens of great restaurants, bars, and stores. These places deserve to be enjoyed by the public in a safe and walkable area.

Comments for Public Posting: As a Koreatown resident, I strongly support the pilot project to pedestrianize 6th Street. We need more park-like space for people, especially in Koreatown, perhaps the most park-poor neighborhood in Los Angeles. I would support a permanent pedestrianization of 6th Street, particularly during weekends!

Comments for Public Posting: I fully support the proposal to close 6th Street to cars on weekends between Normandie Avenue and South Catalina Street. Koreatown needs more space where residents can walk, relax, and enjoy the neighborhood. The recent Sunday pop-up showed how much the community values pedestrian-friendly areas. Making 6th Street car-free would also help bring more people to local businesses. I hope this pilot leads to a permanent pedestrian zone on 6th Street.
