Comments for Public Posting: As someone living in an apartment building without AC, this affects me and my neighbors directly. Our landlord has been taking action to prevent tenants from using portable AC units while my neighbors, especially those who are disabled and elderly, suffer. Until there is a viable alternative presented, it is dangerous to disallow portable AC units in apartments where it is otherwise impossible to reach safe temperatures. Thank you for considering this ordinance to help protect tenants like me and my neighbors from heat related deaths.
