Comments for Public Posting: On behalf of Move LA, I want to strongly recommend Allan Marks for appointment to the Los Angeles Department of Water and Power Commission. Allan is an ideal person for this role. He has served on the Move LA Board for over fifteen years, providing welcome and important advice as we expand our public transportation system and build more affordable housing. He leads with integrity, wisdom, and ethics in all his work as a partner on these efforts. In addition, he has decades of experience in the renewable power market, working on multiple projects here in California and around the globe to decarbonize our power and transportation infrastructure. As we work towards our goal of 100% renewable power by 20235, Allan is the leader you need now to guide our public utility forward. Please vote yes on this appointment.
