Comments for Public Posting: Hon Council members, I oppose any further land development that will take away valuable GREEN SPACE. What the City of Los Angeles needs is more GREEN SPACE! The city of Los Angeles with a population of 4 million people there needs to be more green space and parks for quality of life and health. We cannot afford to give up city property to greedy land developers who are destroying the environment! In addition, "hillside parcels located in High and Very High Fire Hazard Severity Zones should be excluded from the Small Lots Big Impacts initiative."
