Council File No: 25-1295

Comments for Public Posting: I am writing in support of the resolution in Council File #25-1295 introduced by Councilmembers Hernandez and Jurado, and seconded by Councilmember Soto-Martinez on October 31, 2025, opposing the proposed gondola from Union Station to Dodger Stadium and urging the Metro Board to deny approval of the project's new EIR. Councilmembers Hernandez, Jurado, and Soto-Martinez represent the communities that would be impacted the most by this project: CD1, CD13, and CD14. Their communities are opposed to the gondola. These local elected officials, those closest to their communities, who best represent them, are opposed to the gondola. I urge you to defer to their judgment of what is best for their constituents in their districts. The resolution clearly states the harmful impacts the gondola would have on neighborhoods in the historic heart of Los Angeles, including Olvera Street, Chinatown, and Solano Canyon, as well as El Pueblo de Los Angeles Historic Monument, Los Angeles State Historic Park, and Elysian Park. It also recognizes the City Council's support for a fair and objective study of better alternative solutions to the traffic congestion around Dodger Stadium and the transportation needs of surrounding communities. Please vote "yes" and support local communities and their elected representatives when this resolution comes before you in the days to come. Thank you!

Comments for Public Posting: The gondola to Dodger Stadium is destructive on many levels. It will cut through communities and destroy a large park that would be in its path. It will not curtail traffic but will destroy hundreds of trees. What about the housing problem? How many people will lose their homes in eminent domain procedures. Low income communities are in its path. This plan needs to be shelved and other solutions sought.

Comments for Public Posting: The gondola is a vanity project. It would do nothing to relieve congestion near Dodger Stadium. It would cause major disruption to and displacement of current residents of the surrounding neighborhoods - residents historically already negatively impacted by severe displacement from the building of the stadium to begin with. Please listen to the residents in their objections to this project and stand with them to protect their neighborhoods. Vote to oppose the gondola!
