Comments for Public Posting: I support revoking the permit that was issued to build the concrete wall at 4311 Lincoln Blvd. against the wishes of those of us in the neighborhood and generally the residents of the dwellings adjacent this wall / access point. My wife and I have been using this path to access the library, the Marina, the promenade and the stores there, and the park, regularly since 2009. Driving is not practical (and free parking non-existent), and walking is more difficult and most unpleasant. We rarely access this area anymore for one reason: That damn concrete wall. Please, please restore safe access!
