**Comments for Public Posting:** My partner and I are a one car household and we rely heavily on bike access to Marina Del Rey for both recreational and essential reasons. Our bike and walking access to Marina Del Rey and all the other northern coastal areas (Venice and Santa Monica). The wall blockage has essentially cut off our safe commuter option to these areas. This gateway was used on a constant basis by the community for walkers/bikers in this area. Groceries, the library, recreation and coastal access. It's been open and available and used by the community the entire time I've lived in this Del Rey area which is for at least 8 years. Please give us a gateway.  
Thanks. - Samantha Garrabrant
