Comments for Public Posting: The access point referenced in this motion is an integral part of already severely lacking cycling infrastructure connecting Marina del Rey to inland areas such as Culver City. Without it riders are forced to take either a long detour or a much more dangerous route among cars. I am one of those riders, and have been for the five and a half years I've lived here, and because of that I support this motion to revoke the permit issued to build the concrete wall at 4311 Lincoln Blvd and restore access.

Comments for Public Posting: We were extremely disappointed when we learned of the new wall that was installed behind the Ralph's parking lot on Lincoln that now blocks our neighborhoods access to the marina bike path. As a family with young kids learning to cycle this was the safest way for us to commute from del Rey neighborhood to the beach. Unfortunately Washington between Beethoven and Lincoln is very unsafe for bikers with no defined lanes and numerous potholes and speeding traffic around the Costco and Lincoln intersections. We urge Traci park's team to remove the fence that was installed adjacent to the apartment complex/Ralphs on Lincoln and maxella and to restore safe biking access for the del Rey community. We would also urge city council members to improve the biking infrastructure on Washington Ave at large being such a important thoroughfare. Thank you kindly for your consideration. Neighbors on Tivoli Ave

Comments for Public Posting: Please remove this wall. I've been using this for almost 30 years!
The projected destroyed our sunsets and airflow down Maxella.
This passage was the only perk.

Comments for Public Posting: I support this motion to revoke the permit issued to build the concrete wall at 4311 Lincoln Blvd. I have been using this access point to access coastal resources for 16 years and would like access to be restored for the entire community.

Comments for Public Posting: I support the Traci Park, Councilwoman, 11th District motion Re: 4311 South Lincoln Boulevard / Revoke Coastal Exemption / Freestanding Cinder Block Wall / Environmental Impacts. The Block Wall has blocked a public pathway that has been open for many years.

Comments for Public Posting: I support this motion to revoke the permit issued to build the concrete wall at 4311 Lincoln Blvd. The closure reduces access for pedestrians and cyclists coming from Del Rey, Culver, Mar Vista and other areas to enjoy the Marina and access businesses there. The alternative for some is longer and more hazardous. I have been using this access point to access the Marvin Braude Bike Path and Marina businesses for 8 years and want access to be restored.
