

**MOTION**

The Los Angeles Fire Department (LAFD) has reported that Rancho LPG Holdings has failed to provide the full documentation required for its Fire Safety Analysis (FSA), despite prior requests and violations issued by the Department.

Ensuring compliance with all fire and life safety requirements is critical given the site's location, industrial operations, and potential public safety impacts.

I THEREFORE MOVE that the Los Angeles Fire Department, with the assistance of the City Attorney and City Administrative Officer, be instructed to report back within 15 days on:

1. Rancho LPG's compliance status with all requested fire safety documentation;
2. All enforcement actions taken to date; and
3. Any additional steps necessary to compel full compliance and ensure public safety at the facility.
