Council File No: 25-1428

Comments for Public Posting: I am writing in strong support of Council File 25-1428. Please vote YES on the motion directing LAFD to adopt Option 4 (Vegetation) and Option 2 (Trees), plus potted plants and exceptions for our protected trees in Zone 0. I have lived in Lake Hollywood for approximately 45 years. My community is well maintained. We do brush clearance every year. The trees and foliage are green and well maintained. Yesterday I walked through my neighborhood and tried to imagine what it would look like with the Zone Zero regulations. It would be devastating. Our park like environment would be a wasteland. There has to be a better compromise. I strongly support LOCAL control of Zone Zero regulations. Please include Vegetation option 4 and tree option 2 in the final Zone Zero regulations. My first Christmas Tree here was a live tree that looked like Charlie Browns Christmas tree. I planted it in my back yard myself. It's now over 3 stories tall and still growing. It hurts my heart to think I would need to kill that tree. There are going to be many similar stories once the public is aware of Zone Zero. Please vote Yes! Thank You, Tony Villanueva

Council File No: 25-1428

Comments for Public Posting: I am writing in strong support of Council File 25-1428. Please vote YES on the motion directing LAFD to adopt Option 4 (Vegetation) and Option 2 (Trees), plus potted plants and exceptions for our protected trees in Zone 0. These options protect life safety while preserving the well-maintained plants and tree canopy that define Los Angeles neighborhoods. This motion is an essential step to ensure Zone 0 is implemented in an ecologically responsible, scientifically grounded, and appropriate for the built landscape of Los Angeles. Please vote YES.
