Subject: Please upload to Council File: 25-1466

Dear Los Angeles City Clerk,

I would greatly appreciate it if you can upload the following message to Council File: No. 25-1466

When the motion to weaken the Olympic Wage is again under consideration by Council, I urge you to stand with tourism workers and fulfill the promise of living wages and access to family healthcare enshrined in the law you passed just last year.

I encourage you to go back and listen to the powerful testimony of workers and community members at the May 13 meeting. They shared their stories of the transformative impact of the Olympic Wage that Council passed a year ago: finally being able to afford needed medical procedures and see specialists, paying off medical debt, keeping up with the rising cost of rent, and simply being able to spend quality time with their families.

Please protect these gains for working families. Under the existing policy you passed into law a year ago, tourism workers are slated to see an increase to \$25/hr on July 1, right in the middle of the World Cup. The workers who will serve the fans flying into LAX and staying in our hotels for the most lucrative competition in sporting history are counting on these wages and access to family health care - guarantees that have been outlined in the law for a year now.

The unethical extortion tactics of business lobbyists threatening to decimate the city budget if workers' wages and healthcare are not cut should not be rewarded. This whole process sets a dangerous precedent that undermines the integrity of the legislative process and jeopardizes any future gains for our communities.

I am urging you to show strength in leadership, preserve the integrity of our legislative process, and fight to protect tourism workers' wages and health care.

Signed,

Sincerely,

mx AJ cho

Dear Los Angeles City Clerk,

I would greatly appreciate it if you can upload the following message to Council File: No. 25-1466

Honorable City Clerk,

I have been closely monitoring the city council meetings and am aware of the 'Olympic Wage' issue. I think that this issue is important to many people because the wealthy and the business lobby continue to exploit workers for profit.

I would greatly appreciate it if you can upload the following message to Council File: No. 25-1466

When the motion to weaken the Olympic Wage is again under consideration by Council, I urge you to stand with tourism workers and fulfill the promise of living wages and access to family healthcare enshrined in the law you passed just last year.

I encourage you to go back and listen to the powerful testimony of workers and community members at the May 13 meeting. They shared their stories of the transformative impact of the Olympic Wage that Council passed a year ago: finally being able to afford needed medical procedures and see specialists, paying off medical debt, keeping up with the rising cost of rent, and simply being able to spend quality time with their families.

Please protect these gains for working families. Under the existing policy you passed into law a year ago, tourism workers are slated to see an increase to \$25/hr on July 1, right in the middle of the World Cup. The workers who will serve the fans flying into LAX and staying in our hotels for the most lucrative competition in sporting history are counting on these wages and access to family health care - guarantees that have been outlined in the law for a year now.

The unethical extortion tactics of business lobbyists threatening to decimate the city budget if workers' wages and healthcare are not cut should not be rewarded. This whole process sets a dangerous precedent that undermines the integrity of the legislative process and jeopardizes any future gains for our communities.

I am urging you to show strength in leadership, preserve the integrity of our legislative process, and fight to protect tourism workers' wages and health care.

Sincerely,
Veronica Gonzalez
Los Angeles, 90065-1508

Dear Los Angeles City Clerk,

I would greatly appreciate it if you can upload the following message to Council File: No. 25-1466

Please beat back the motion to weaken the promise to workers of living wages and access to family healthcare enshrined in the law you passed just last year.

You know what's really going on in this amendment. It is a powerful industry and their lobbyists, trying to dominate its workers and slam them down to protect their profit margin. There is no such thing as "the poor." There is only people who have been impoverished by those who reap enormous profits. That's what's happening here. I ask you to resist the incessant greed of the corporate leaders of the tourism industry, as well as the extortionist tactic they're threatening.

Don't cooperate with it. Don't be complicit.

Please protect the hard fought gains for working families who are counting on these wages and access to family health care - guarantees that have been outlined in the law for a year now.

There was a vigorous legislative process. I am urging you to show strength in leadership, preserve the integrity of our that process, and fight to protect tourism workers' wages and health care.

Signed,

Sincerely,
Daniel Tamm

When the motion to weaken the Olympic Wage is again under consideration by Council, I urge you to stand with tourism workers and fulfill the promise of living wages and access to family healthcare enshrined in the law you passed just last year.

I encourage you to go back and listen to the powerful testimony of workers and community members at the May 13 meeting. They shared their stories of the transformative impact of the Olympic Wage that Council passed a year ago: finally being able to afford needed medical procedures and see specialists, paying off medical debt, keeping up with the rising cost of rent, and simply being able to spend quality time with their families.

Please protect these gains for working families. Under the existing policy you passed into law a year ago, tourism workers are slated to see an increase to \$25/hr on July 1, right in the middle of the World Cup. The workers who will serve the fans flying into LAX and staying in our hotels for the most lucrative competition in sporting history are counting on these wages and access to family health care - guarantees that have been outlined in the law for a year now.

The unethical extortion tactics of business lobbyists threatening to decimate the city budget if workers' wages and healthcare are not cut should not be rewarded. This whole process sets a dangerous precedent that undermines the integrity of the legislative process and jeopardizes any future gains for our communities.

I am urging you to show strength in leadership, preserve the integrity of our legislative process, and fight to protect tourism workers' wages and health care.

Signed,

Sincerely,
john viera

Subject: Please upload to Council File: 25-1466 - HANDS OFF THE OLYMPIC WAGE!
Dear Los Angeles City Clerk,

I would greatly appreciate it if you can upload the following message to Council File: No. 25-1466

I strongly urge LA City Council Members to vote NO on any policy that would weaken the Olympic Wage for tourism workers.

On Wednesday, Los Angeles City Council will consider Council President Marqueece Harris-Dawson's motion to delay wages and healthcare for hotel and airport workers and exclude entire groups of workers from the Olympic Wage. This response to a brazen corporate pressure tactic would undo a policy that Angelenos and City Council should rightly be proud of.

We are calling on you to stop this corporate shakedown. These corporations are trying to take money out of workers' pockets and delay their access to family health care only a month before these workers' will welcome visitors from across the world for the World Cup and right before they are scheduled to receive desperately needed wage increases and stronger health benefits in July.

Perhaps more troubling, this motion is a clear capitulation to extortion. The same corporations - Delta, United, and American Hotel & Lodging Association - that spent nearly \$3 million on a failed referendum bid to delay the Olympic Wage are now cynically wielding a business tax repeal measure as leverage to coerce the City to cut the Olympic Wage or else face a decimated budget.

For City leadership to give in to this absurd corporate demand not only hurts tourism workers and their families; it sets a dangerous precedent that undermines the integrity of the legislative process and jeopardizes any future gains for our communities.

Angelenos have and will continue to stand alongside tourism workers. We call on you to stand strong and do the same.

I am urging you to show strength in leadership, preserve the integrity of our legislative process, and vote NO at City Council this Wednesday May 13th.

Sincerely,
Ms. Penelope sallberg
Pasadena, 91104-3622
