Council File No: 25-1469

Comments for Public Posting: We are in strong support of councilman Tim McOsker's motion 25-1469, Agenda Item 4 to investigate the longstanding environmental and community safety concerns at the JCI Jones Chemicals, Inc. (JCI) facility located next to the Cheryl Green Boys and Girls Club and embedded between two environmental justice communities; one in the city and the other in the county. This chemical facility has repeatedly violated many state and federal environmental laws and continually fails to maintain their facility which is literally falling apart. This review is critical to our community. The Del Amo Action Committee and myself are deeply committed to the communities safety as the utmost priority
