Comments for Public Posting: Please consider supporting Motion 25-1484. This motion will prevent the clustering of rehabs. San Pedro has over 30 rehabs by one organization alone, who knows how many others there are. This one organization continues to open new rehabs. I see that the Motion will be voted on this Tuesday August 11th. I also request that a 1000 foot distance be maintained between rehabs and schools and churches. As a San Pedro resident I hope you see this is a small town with a strong family community. Thank you for your support.

Comments for Public Posting: We support motion 25-1484, reducing the density of rehab facilities in San Pedro. The community has, for too long, been a dumping ground for these types of businesses that don't belong in residential neighborhoods or near schools. The number of residents hosted by these businesses in San Pedro far exceeds the needs of the community, itself. Add to that the difficulties associated with treating drug and alcohol addiction with the associated recidivism and you have a recipe for increased crime and violence in our neighborhoods. No community should be forced to shoulder this burden at the levels seen in San Pedro. The city regulates other potentially problematic businesses like liquor stores and cannabis shops which actually have less potential to disrupt neighborhoods than rehab businesses which house residents coming out of correctional facilities with minimal oversight.

Comments for Public Posting: I strongly support Motion 25-1484 to regulate sober living home density in Los Angeles. While recovery housing is necessary, the city must establish strict zoning rules to protect neighborhood infrastructure. I urge the council to include a mandatory minimum distance requirement of 1,000 feet from all schools, childcare centers, and churches to maintain a balanced, safe environment for both residents and recovering individuals
