**Council File No:** 25-1509-S1

**Comments for Public Posting:** Dear Councilmembers, My name is Sharon, and I am the owner of Share Club, a thrift store & community space in CD10 Los Angeles, and a proud South LA resident of CD8. I am writing in strong support of the proposed film permitting measures under CF 25-1509-S1. Film and television production are essential to the economic vitality of Los Angeles. When productions stay in LA, small businesses like mine benefit directly and indirectly — from increased foot traffic to partnerships, event bookings, and overall neighborhood activity. A thriving local entertainment industry supports not just studios and crews, but also retailers, service providers, restaurants, and countless other small businesses that make up the fabric of our city. Efforts led by CD5 Councilwoman Katy Yaroslavsky and the Entertainment Advisory Group to streamline permitting and make it easier to shoot in Los Angeles are critical to keeping production — and the jobs and economic ripple effects that come with it — here at home. At a time when it's nearly impossible to have a thriving small business, while many of us are still recovering and navigating economic uncertainty, policies that strengthen our local creative economy are deeply meaningful. I urge the Council to support these measures and help ensure Los Angeles remains a global hub for film and television production. Thank you for your leadership and consideration. Sincerely, Sharon Lee Owner-Operator, Share Club Los Angeles (CD10)
