Comments for Public Posting: Supporting City Council's motion 25-1514 is a no brainer considering it highlights MISCONDUCT by Jacob Haik. The recent actions by LAWA, specifically Jacob Haik who's had multiple lies exposed on public record (see recordings/videos of VNY CAC meetings), and the Board of Airport Commissioners show a troubling double standard — reducing representation in District 5 and restricting City Council appointing authority while continuing to SHIELD MAYORAL APPOINTEES from the same residency requirements recently imposed on City Council appointees. This deliberate manipulation of a citizens advisory body by means of a biased enforcement of rules is not just unethical, it's a blatant abuse of authority aimed at suppressing public voices and accountability. Based on review of BOAC meetings over the years, Karim Webb and Nicolas Roxborough have proven to be uninformed and self-motivated actors on the BOAC, defiant against what's in the best interest of the airport, the City and surrounding communities. This is substantiated by inadequate development leases defended by both and approved by the Board. The abuse of power by unelected bureaucrats in this city is out of control. The Mayor's complicity in these decisions, including retaining appointees with clear conflicts of interest like Jason Price, only deepens the misuse of authority and lack of accountability. I urge the City Council to take even STRONGER measures. Why was Roxborough reconfirmed after being exposed for violating city law? See: page 3 of this public record:
