Council File No: 25-1514

Comments for Public Posting: My name is Cathy and I am a resident of Lake Balboa. I am frustrated with my councilmember's office seeming lack of understanding of airport issues and feasible change, as well as the lack of willingness to work with the knowledgeable community reps we have on airport issues in any meaningful consulting with those adept on topic where your expertise may gap. Please honor that promise.
.....
That said, my family appreciates and fully supports motions 25-1514 and 25-1505. We just need follow through beyond the motions! City Council should send a letter to the airport board to accompany 25-1514 that criticizes the lack of cooperation and apparent void of documentation to support their City Council. They clearly have zero respect for this elected body.
.....
As for 25-1505, thank you for not excluding Van Nuys airport. While the motion fails to name the airport, at least it doesn't exclude us from the studies. I don't think many people are aware of the motion and I would request that the Travel committee offices collaborate with and keep the valley's access to airport issues because not a single office on this community is impacted by VNY and we need more attention paid to LAWA's harmful shortcomings.
.....
Thank you for the two motions. Please ensure follow through to make them effective. Please pay attention to Van Nuys Airport issues in general! There are some serious concerns about insufficiencies in a number of request for proposals recently released and Jacob Haik's chronic lies are out of control. Mr. Haik's ongoing deception to the public and you is dangerous and unacceptable.

way. A reminder to Councilmember Padilla, your campaign promise included

decisions. The Board's Oct. 16 action was uninformed and a slap in the face to

pted aviation advocate abreast of such efforts and seek education on Van Nuys

ol. Do not take LAWA at their word, demand records that substantiate their
