Comments for Public Posting: I strongly support this resolution. I have experienced the negative impact of encampments and vehicular dwelling in the areas pertaining to Sun Valley. We need to bring back safety to these areas! I have been present for cleanups, Care, Care Plus and CEO and have seen how the unhoused individuals decline housing. Resources get allocated to clean these areas to see them trashed right after City employees leave after completing the cleanups. We have waited patiently for the unhoused to accept resources, but instead continue to experience fires, illegal activity, constant trash and bulky items, theft of electricity, theft of copper wiring, burglarized residences and businesses. We want to feel safe!
