Comments for Public Posting: I support resolution 25-4118-S17, the homeless encampment keeps coming back on the north/east corner of Venice Blvd and Mac Laughlin ave in spite of clean ups and offers of service. It's next to the crosswalks at this intersection. We see piles of items and trash. Because it's close to the control channel, they keep cutting the chains on the gates and the chain link fences to access the control channel. We can hear them screaming and yelling profanities specially at night. Few years ago the wood fence of one of the properties on the channel was lite on fire. We have called countless time LA County public works (that has jurisdiction of the control channel) to come and fix the gates and fences. The same scenario keeps happening. Please vote for this resolution Thank you
