Summary:

On September 16, 2026, your Committee considered a Resolution (McOsker - Rodriguez) relative to prohibiting the parking of oversize vehicles during all hours of the day and night on certain street segments in CD 15, as detailed in the Resolution and above in Recommendation No. 1. According to the Resolution, there is an increased problem with oversized vehicles parking along several street segments where large vehicles are often parked overnight and constrict travel lanes, thereby creating hazardous situations. Pursuant to LAMC Section 80.69.4, and California Vehicle Code Section 22507, it is proposed that the parking of vehicles that are in excess of 22 feet in length or over 7 feet in height, during all hours of the day and night, be prohibited along the street segments as detailed in Recommendation No. 1. After consideration and having provided an

opportunity for public comment, the Committee moved to recommend approval of the Resolution, as amended. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

Transportation Committee
