Council File No: 26-0008-S17

Comments for Public Posting: Residents of Hortense Street support Council File 26-0008-S17. For many years, our neighborhood has experienced recurring issues involving oversized vehicle parking, RV habitation, sidewalk obstruction, graffiti, vehicle dumping activity, sanitation concerns, and related public safety and quality-of-life impacts. The attached photographs document conditions experienced on Hortense Street in North Hollywood ZIP Code 91602, including graffiti, RV occupation, sidewalk blockage, vehicle dumping activity, and sanitation concerns. The photographs also include examples of oversized-vehicle and parking-restriction signage currently used by other jurisdictions. We respectfully request that the City verify the location description associated with this Council File. The affected area is Hortense Street, not Hortense Avenue, specifically the stretch within ZIP Code 91602 involving Camellia Avenue, Farmdale Street, and Kraft Street. We also respectfully request that the City evaluate signage placement on both sides of Hortense Street and consider the most effective sign types for addressing the ongoing issues documented in the attached photographs. Consideration should be given to maintaining necessary access for ACS patrol vehicles, which regularly park and patrol the area in support of neighborhood safety, while also avoiding unnecessary impacts on residents who lawfully park personal vehicles on the street. The attached photographs demonstrate both the recurring neighborhood impacts experienced by residents and examples of practical solutions already being used elsewhere. Appropriate signage would provide clear notice, support enforcement efforts, improve public safety, and help preserve neighborhood access and quality of life. We respectfully request timely consideration and approval of Council File 26-0008-S17 so the appropriate signage can move forward through the Council process and ultimately be installed on Hortense Street. Thank you for your consideration.

Respectfully submitted, Philip Vasquez Resident, Hortense Street Community North Hollywood, CA 91602 The following residents support the installation of appropriate oversized-vehicle and parking-control signage on Hortense Street: Steven Kosen Patty and Larry Jason and Adrian Amita Balle Anita, Victor and Charissa Merluza Family Genie and Ryan Braun Ruben Marquez Stewart and Tammy Moe Family Aaron and Lindsey TJ Thyne
