Comments for Public Posting: I request that the City Planning Department, LADOT and LAFD do the appropriate impact studies of the infrastructure impacts, safety impacts, traffic impacts - parking impacts - to the community of "Woodbridge" of the proposed 11143-11157 West Acama Street building project. A 131 unit, two-bedroom, apartment building with absolutely no-parking is an insane proposition, regardless if it qualifies for exemptions under CHIP and AHIP guidelines. Increased density should not contribute to decreased quality of life, and this apartment project will negatively impact all the residents of this neighborhood. Thank you.
