RE: Motion 26-0205  
Bureau of Street Lighting  
Solar Powered Upgrade Streetlights

Dear Members of the City Council, Government Operations, Chief Administrator's office and Interested Members,

The P.I.C.O. Neighborhood Council ("PICO NC") writes to express its support for motion 26-0205 regarding the implementation plan for surge installation of solar-powered streetlights across the City of Los Angeles with particular support for upgrades, replacement including the necessary staffing, equipment, and expenses for continued support

The ongoing copper wire theft in recent years, coupled with the lack of infrastructure support across city services in particular within the Bureau of Street Lighting has caused a serious public safety issue inviting crime and impeding the ability of our community to safely and securely walk and drive within our neighborhoods.

With that in mind, the PICO NC submits this letter of support to review and submit an implementation plan to replace hard, copper wire streetlights with solar-powered upgrades.

Sincerely,

Lisa Kaye

President, PICO NC
