A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at [empowerla@lacity.org](mailto:empowerla@lacity.org).

The Board approved this CIS by a vote of: Yea(13) Nay(0) Abstain(0) Ineligible(0) Recusal(0)

Date of NC Board Action: 03/11/2026

Type of NC Board Action: For

### Impact Information

Date: 05/19/2026

Update to a Previous Input: Yes

Directed To: City Council and Committees

Council File Number: 26-0205

City Planning Number:

Agenda Date:

Item Number:

Summary: At a Brown Act-compliant meeting on March 11th, 2026, the NoHo Neighborhood Council voted in support of CF 26-0205 by a vote of 13-0-0. At its meeting, the NOHO NC Board voted to support Council File 26-0205. This motion calls for accelerating the installation of solar-powered streetlights citywide, with a minimum of 500 installations per Council District funded through the Street Lighting Maintenance Assessment Fund; and a creation of a report back with a comprehensive implementation plan. The Board views reliable street lighting in District 2 as a critical component of public safety, particularly pedestrian safety. Well-lit streets deter crime, reduce traffic collisions, and improve visibility for pedestrians, cyclists, and drivers alike. The Board expressed strong support for solar-powered streetlights due to their

increased resilience and reduced vulnerability to copper wire theft, an issue that has significantly disrupted traditional streetlight infrastructure in our neighborhoods. District 2 includes several high-traffic corridors and residential areas where consistent lighting is essential for community safety. The installation of 500+ solar-powered lights in our district represents a meaningful step toward enhancing safety and modernizing our aging infrastructure. For these reasons, we support CF 26-0205 and urge the City to prioritize District 2 in both the initial installations and any subsequent repairs or conversions.
