Council File No: 26-0263

Comments for Public Posting: I had the pleasure of serving with Mike on the Sun Valley Area Neighborhood Council as his Vice President and, for a time as Chair of the Land Use Committee. During that time our Neighborhood Council was instrumental in projects that transformed Sun Valley. Mike took the lead in projects like Rory Shaw Park Sun Valley Watershed improvement Project, supporting the relocation of the first hi-tech Richard E. Byrd Jr. High, redesigning what is now the Main FED-Ex building for water-retention and energy wise construction, championing permanent supportive housing and many other transformative projects in the Sun Valley community, with attention to details like the camouflage of cell towers and organizing beautification projects. The corner of Sheldon and Laurel Canyon is a fitting location and a testament to the effect one individual can have on the revitalization of a community.
