SPECIAL 1

MOTION

The rainstorm on February 19, 2026 saturated a hillside above a segment of Posetano Road in Pacific Palisades. On February 23, 2026, the Bureau of Engineering inspected the area and found that the rains have led to a slope failure that continues to experience movement, which has resulted in damage in the City's right-of-way. The existing cement stairway has crumbled and, along with dirt and other debris, are all in imminent danger of falling into the roadway below. There is an immediate need to act to protect the public against possible death and injury. Approval by the City Council and Mayor is required to establish a new capital project and to appropriate funds for emergency debris removal.

I THEREFORE MOVE that Council determine, as provided in Government Code Section 54954.2(b)(2), and pursuant to Rule 23 of the Rules of the City Council, that there is a need to take immediate action on this matter and that the need for action came to the attention of the City subsequent to the posting of the agenda for today's Council meeting.

I FURTHER MOVE that the Council, subject to approval of the Mayor, establish a new capital project entitled "Posetano Road (17570) Emergency Debris Removal" and appropriate/transfer \$174,944.95 from SB 1 Road Rehabilitation and Maintenance Fund No. 59V-50, Enchanted Way (711) Account No. 50AZCE, to Capital Improvement Expenditure Program Fund No. 100-54, new account "Posetano Road (17570) Emergency Debris Removal Project" to pay an emergency on-call contractor to perform the work.

I FURTHER MOVE that the City Administrative Officer be authorized to make any technical corrections or clarifications to the above fund transfer instructions in order to effectuate the intent of this Motion, including any corrections and changes to fund or account numbers.
