**Comments for Public Posting:** The motion introduced March 3, 2026, needs to be amended so that it includes all non-storefront retail license types. As written, the motion falls short of fostering the market participation it purports to achieve by instructing DCR to open a licensing process to the public limited to cultivation and delivery. By way of this limitation, distribution, manufacturing, and testing licenses are excluded. These business activities are crucial to the cannabis supply chain. Moreover, each activity mentioned presents another opportunity for new businesses to enter the market. I urge the city council to amend this motion by including all non-retail storefront cannabis license types in its instructions to the DCR.
