Comments for Public Posting: As a commercial property owner in Hollywood, I formally protest the proposed fee/assessment increase under Streetlight Maintenance Assessment District No. 5500. My property is already facing an overwhelming and disputed property tax reassessment, and adding another fee places an undue financial burden on my business. Furthermore, it is unreasonable to penalize property owners with new maintenance fees for streetlight outages and damages that are the direct result of copper wire theft—a security and infrastructure failure that falls under the City's responsibility, not the property owners'. I respectfully ask that this assessment be denied.
