**Comments for Public Posting:** I am writing to SUPPORT the motion to "Prohibit Electric Bicycles / Equestrain, Hiking and Recreational Trails". The Equestrian lifestyle has been part of Los Angeles community since the the early California Ranchos days in the 1800s. Equestrians contribute to the City of Los Angeles economic revenue by employing farmers to grow our hay, feed stores where we buy our grains, vets tovtake care of illnesses, farriers to do shoes and trims and a large variety of other equestrian professionals for the daily care and maintenance. Retail sales taxes, licensing fees and daily costs are all part of the economic engine that drives Los Angeles. When equestrians ride horses on open city public equestrian trails, they should not have any fear from intrusive electric bikes on trails. These electric bikes have proven to be dangerous and cuase great bodily harm to riders fall off. Additionally, Electric bike owners are a danger on public streets with cars going faster than the posted speed limit in school zones and traffic. Please KEEP ALL ELECTRIC BIKES OFF all city equestrian trails. THANK YOU! Please
