**Comments for Public Posting:** I write in support of the motion to explore adding a bike lane to the Vermont Transit Corridor Project. Vermont Ave is such a critical north-south connection, and it is essential for access to many schools and places of business. It is very dangerous for cyclists and it was included in the Mobility Plan for good reason. Under HLA, the City should be implementing a bike lane as part of the resurfacing, and deferring this will add tremendously to the cost of compliance with HLA. Please do not squander this opportunity to make our city safer and accessible for all users.
