Comments for Public Posting: I am speaking in my personal capacity. I understand that in Motion 26-0526, the donations are intended to help offset the operating costs of the Office of Strategic Partnerships. The motion also notes that funds are appropriated to Salaries, which I understand typically supports staff and operations of that office. My question is, once those funds are deposited into the General Fund, how is it ensured that they continue to support that intended purpose? More broadly, I understand that partnerships often help support programs such as spay and neuter services, enrichment, and animal care. I am interested in how those types of intended outcomes are tracked or supported through this structure. Thank you for your time.
