

TRANSPORTATION COMMITTEE REPORT relative to an agreement with American Traffic Solutions, Inc., dba, Verra Mobility, for the operation and management of the automated speed safety camera system.

Recommendation for Council action:

AUTHORIZE the Department of Transportation (DOT) to enter into an agreement with American Traffic Solution, Inc., dba Verra Mobility, for a term from May 1, 2026 to January 1, 2032, with an amount not to exceed \$38,375,000 for the operation and management of the Automated Speed Safety Camera System.

Fiscal Impact Statement: The DOT reports that approval of this agreement will not immediately impact the General Fund. The DOT will establish a specific annual cost ceiling for this contract. Front funding for the speed enforcement program operator was appropriated in the Fiscal Year (FY) 2025-26 Adopted Budget with \$589,262 from the Measure R Local Return Fund and \$4,185,912 through the Measure M Local Return Fund. The legislation specifies that revenues derived from the program shall first be used to recover program costs, including the aforementioned contract costs, followed by traffic calming measures. The DOT will develop an expenditure plan for program cost recovery and an associated traffic-calming program as part of the City's annual budget cycle or, as necessary, during interim Financial Status Reports. The DOT anticipates full cost recovery in each operating year of the pilot program. Neither the City Administrative Officer nor the Chief Legislative Analyst has completed a financial analysis of this report.

Community Impact Statement: None submitted

TIME LIMIT FILE – JULY 7, 2026

(LAST DAY FOR COUNCIL ACTION – JULY 1, 2026)

Summary:

On May 27, 2026, your Transportation Committee considered a May 8, 2026 DOT report relative to an agreement with American Traffic Solutions, Inc., dba, Verra Mobility, for the operation and management of the automated speed safety camera system. According to the report, Assembly Bill 645h established the Speed Safety System Pilot Program and designated the City of Los Angeles as an authorized participant in this initiative, which permits the implementation of Speed Safety Camera systems to capture images of vehicles exceeding established speed limits. After consideration and having provided an opportunity for public comment, the Committee moved to recommend approval of the report recommendation. This matter is now submitted to Council for its consideration.

Respectfully Submitted,

Transportation Committee
