Comments for Public Posting: I support this resolution strongly. I live across the street from the land at risk and see daily the value it adds to this city. I not only see and know the wildlife that'll be affected from the human families that live near here that'll will be greatly negatively impacted. On a personal note that I know I won't be alone in, I have young children that have grown up in this park. They attended a nature school nearby that would spend some time at san Pasqual. They know and see the value. This will not just affect them emotionally but will also affect their health. One of my sons has asthma and this kind of long project as well as the disappearance of mature greens will absolutely harm him. There are many families that not only live near here hat will be similarly impacted but also the families that enjoy the neighboring parks. Please save our park. Save this precious land and stop the land grab from Pasadena. We only need more mature greens given the devastating fires we've witnessed. We see what Pasadena is doing to their schools and their trees. There's obviously not learning from he fires and no desire to protect our wildlands, people and air especially if it's in the LA city side. We need this park.

Comments for Public Posting: Hi, I'd like to support the resolution to Save San Pascual Park from being destroyed through the Arroyo Seco Water Reuse Project, it is a beautiful park and a place I spent my childhood as a lifelong LA resident. It would be tragic to see the park and its wildlife gutted and frankly disrespectful to the indigenous Gabrielino people who honor this site. Please protect this park, thank you.

Comments for Public Posting: I request additional time on this item to ensure the inclusion of all First Peoples as recognized in the city's official Land Acknowledgment. Additionally, see the attached letter by the San Gabriel Band of Mission Indians. Dear Los Angeles City Council Members and Los Angeles County Board of Supervisors, On behalf of the Gabrieleno San Gabriel Band of Mission Indians, I am writing to share the attached letter regarding the resolution currently scheduled for consideration by the Los Angeles City Council on July 1, 2026. We respectfully ask that you take a few moments to review our concerns prior to tomorrow's meeting. While we appreciate the City's continued efforts to recognize Indigenous history and culture, we are deeply concerned that this resolution, as currently written, may establish a precedent that unintentionally elevates a single organization without acknowledging the multiple Tribal governments with documented ancestral and contemporary ties to the Los Angeles Basin. Our Tribe has worked collaboratively with both the City and County of Los Angeles for many years on initiatives including the Los Angeles City Land Acknowledgment, the Los Angeles County Harms Report, Indigenous Peoples' Day events, Native American Heritage Month programming, educational initiatives, and ongoing participation on the Los Angeles Native American Indian Commission. These collaborative efforts have always recognized the importance of inclusive Tribal engagement and meaningful consultation. The attached letter explains our concerns in greater detail and respectfully requests that the resolution either be postponed to allow for additional consultation or amended to ensure fair and equitable representation of all culturally affiliated Tribal governments. Our Tribal representatives will be present at tomorrow's City Council meeting, and we remain committed to working collaboratively with the City to ensure that Indigenous representation reflects the rich and complex history of Tovaangar. Thank you for your time, your consideration, and your continued commitment to meaningful engagement with Native communities. Respectfully, Kimberly Johnson, PhD Tribal Secretary San Gabriel Band of Mission Indians Gabrieleno/Tongva

Gabrieleno San Gabriel Band of Mission Indians

Los Angeles City Council, District 14
200 N. Spring Street, Suite 425
Los Angeles, CA 90012

June 30, 2026

Dear Councilwoman Jurado,

On behalf of the Gabrieleno San Gabriel Band of Mission Indians, we respectfully write to request that the resolution currently scheduled for a vote on **July 1, 2026**, either be withdrawn from consideration or amended to ensure fair and equitable representation of all culturally affiliated Tribal governments. As currently written, the resolution risks establishing a precedent that recognizes a single organization in a manner that overlooks other Tribes with documented ancestral and contemporary ties to the Los Angeles Basin. We believe this matter warrants further consultation before the City takes official action.

In May 2026, the City of Los Angeles formally recognized our Tribal Nation by adopting a resolution honoring the Gabrieleno San Gabriel Band of Mission Indians and dedicating a mural through the "From Rails to Trails" project acknowledging our enduring relationship to this landscape. We deeply appreciated that recognition and viewed it as an important step toward acknowledging the living Indigenous communities whose ancestors have remained connected to the City of Los Angeles despite centuries of colonization.

It is therefore deeply concerning that, only weeks later, the City is considering another action involving the same landscape that elevates a single tribal organization without first ensuring that all culturally affiliated Tribal governments have been meaningfully consulted.

The California Native American Heritage Commission (NAHC) maintains an official consultation contact list for California Native American tribes. For the Los Angeles Basin, there are multiple Gabrieleno-affiliated Tribal governments identified through that process. The existence of multiple listed tribes reflects the complex history of our region and should caution local governments against presenting any one organization as the exclusive representative of Indigenous interests.

As elected officials, City Council members have an obligation to exercise due diligence before adopting resolutions that may carry long-term historical, cultural, and political consequences. While the City has every right to recognize Native history, it should do so only after engaging all Tribes with documented ancestral and contemporary connections to the area.

Our concern is not simply about one resolution. Rather, we are concerned about the precedent it establishes. Official actions of the Los Angeles City Council are frequently cited by outside agencies, educational institutions, developers, public entities, and future policymakers as evidence of governmental recognition and representation. Once adopted, these resolutions often extend far beyond their original intent.

Gabrieleno San Gabriel Band of Mission Indians

For many years, the Gabrieleno San Gabriel Band of Mission Indians has consistently partnered with the City and County of Los Angeles on initiatives that sought to represent Indigenous peoples inclusively. Our Tribal representatives have maintained consistent participation on the Los Angeles Native American Indian Commission. We have worked alongside City staff and partner organizations during the development of the City's Land Acknowledgment, participated in discussions surrounding the Los Angeles County Harms Report, contributed to educational initiatives, and supported numerous Indigenous Peoples' Day and Native American Heritage Month events throughout the City.

This history matters because meaningful government-to-government relationships are built through sustained participation, collaboration, and consultation. This is not done through isolated resolutions that fail to recognize the diversity of Tribal governments connected to Tovaangar.

The City's own *First Peoples Historic Context Statement* recognizes the complexity of Indigenous history in Los Angeles and acknowledges the importance of engaging Native communities in an informed and responsible manner. The principles reflected in that document should guide City decision-making today.

We respectfully request that the Council postpone consideration of this resolution or amend it to accurately reflect the multiple Tribal governments with documented ties to this region and to ensure that all culturally affiliated Tribes identified through the Native American Heritage Commission have been afforded an opportunity to participate in meaningful consultation. Doing so would demonstrate the City's commitment to fairness, transparency, and equitable representation.

Our Tribal representatives will be present at tomorrow's meeting, and we sincerely hope the Council and your office will take the time to ensure that all voices are heard before taking action that may have lasting implications for Indigenous representation within the City of Los Angeles.

Thank you for your consideration.

Respectfully,

Kimberly Morales Johnson, Ph.D.
Tribal Secretary
Gabrieleno Tongva Tribal Council

Petition Opposing Arroyo Seco Water Reuse Project

Dear Councilmember Ysabel Jurado

I oppose the Water Reuse project at San Pascual Park.

Overview

The \$14 million Arroyo Seco Water Reuse Project threatens San Pascual Park and the surrounding communities, families and park users with a flawed proposal that prioritizes mechanical infrastructure over nature-based solutions. I oppose this project due to environmental destruction, unnecessary tree removal, legal violations, inadequate data, and disproportionate harm to vulnerable communities.

Critical Failures

Environmental Justice Concern

Most impacted residents live within a quarter mile of the 110 FWY: 62% are linguistically isolated, many live in apartments and are dependent on shade provided by the trees in the park for heat relief. The proposed 2-year construction plan impacts the residents with long-term health risks.

Parkland Loss

- Seizes half-acre of LA parkland for 30 years (perpetual control by Pasadena/South Pasadena) making it inaccessible.
- Violates LA Charter Section 594C protecting parkland for public use.
- Impacts park-poor community.
- Los Angeles residents will not benefit from this project and will lose access to parkland.

Environmental & Health Impacts

- Removes 136 of 166 trees, destroying functioning riparian wetland and wildlife habitat
- Eliminates shade and cooling for heat-vulnerable community adjacent to 110 Freeway
- Two years of construction noise, dust, and traffic disrupting residents and wildlife
- Diverts 60% of Arroyo water, harming downstream fish, birds, and ecological corridor
- Places noisy, odorous pump station near Los Angeles homes & negatively impacts park users

Legal & Cultural Violations

- Gabrieleno Kizh are opposed to the project. They are asking for a complete avoidance of this sacred site.
- Because notices were in English-only, and LA residents were left out of the notification process, the Los Angeles community had no say in this project.
- Minimal EIR public involvement violates Measure W equity requirements.

Conflicts with Regional Goals

- Contradicts decades of Arroyo Seco nature-based restoration planning
- Undermines LA County-supported restoration efforts
- Relies on pumps/pipes instead of natural hydrology
- Creates an unsustainable maintenance burden given South Pasadena's poor track record

Flawed Data & Water Rights

- Uses outdated 2012 data; Very high levels of pollution are shown upstream and coming out from the Golf course. The water in the Arroyo Seco adjacent to San Pascual Park has very low levels of pollution.
- Treats pollution mid-stream instead of at the source.
- Rather than a true clean-up project, this is primarily a water supply project to benefit the South Pasadena Golf Course: 535 acre-feet with no state-recorded water rights and 62 acre-feet annually.

I am opposed to this project.

I support a true nature-based solution (see link below for an example) that treats pollution at the source, restores natural systems, protects sacred land, does not take LA park land, and genuinely serves both communities and the environment.

LAND GRAB
OF SAN PASCUAL PARK

The land within the orange lines on the Los Angeles portion is part of San Pascual park.

San Pascual Basin

Arroyo Seco Channel

South Pasadena wants to fence off Highland Park land for a filtration system to water their golf course. They claim the project will clean the water in the channel. Water will be filtered in the Pasadena/San Rafael site & a filtration system is currently in existence on the South Pasadena site. Is this part necessary?

Out of 166 trees in the San Pascual site, 136 will be removed. 40 are protected trees including Coast Live Oaks, Sycamores and Mexican elderberries. These trees protect us from air and noise pollution from the 110 freeway. Trees reduce heat impacts. 15 trees & shrubs will be removed on the L.A. section (San Pascual Park east) of the site including 9 protected trees.

Stop South Pasadena's land grab of San Pascual Park

Comments for Public Posting: I am requesting that this item be given additional time to allow for the inclusion of all First Peoples as listed on the city's official Land Acknowledgement. Additionally, I am including this letter from the San Gabriel Band of Mission Indians. "Dear Los Angeles City Council Members and Los Angeles County Board of Supervisors, On behalf of the Gabrieleno San Gabriel Band of Mission Indians, I am writing to share the attached letter regarding the resolution currently scheduled for consideration by the Los Angeles City Council on July 1, 2026. We respectfully ask that you take a few moments to review our concerns prior to tomorrow's meeting. While we appreciate the City's continued efforts to recognize Indigenous history and culture, we are deeply concerned that this resolution, as currently written, may establish a precedent that unintentionally elevates a single organization without acknowledging the multiple Tribal governments with documented ancestral and contemporary ties to the Los Angeles Basin. Our Tribe has worked collaboratively with both the City and County of Los Angeles for many years on initiatives including the Los Angeles City Land Acknowledgment, the Los Angeles County Harms Report, Indigenous Peoples' Day events, Native American Heritage Month programming, educational initiatives, and ongoing participation on the Los Angeles Native American Indian Commission. These collaborative efforts have always recognized the importance of inclusive Tribal engagement and meaningful consultation. The attached letter explains our concerns in greater detail and respectfully requests that the resolution either be postponed to allow for additional consultation or amended to ensure fair and equitable representation of all culturally affiliated Tribal governments. Our Tribal representatives will be present at tomorrow's City Council meeting, and we remain committed to working collaboratively with the City to ensure that Indigenous representation reflects the rich and complex history of Tovaangar. Thank you for your time, your consideration, and your continued commitment to meaningful engagement with Native communities. Respectfully, Kimberly Johnson, PhD Tribal Secretary San Gabriel Band of Mission Indians Gabrieleno/Tongva"

Comments for Public Posting: My name is Dr. Kimberly Morales Johnson, and I am speaking on behalf of the Gabrieleno San Gabriel Band of Mission Indians. We respectfully ask that today's resolution be amended. Specifically, we ask that the City acknowledge that the Arroyo Seco is a sacred landscape for all Gabrieleno Tribal governments with documented ancestral and cultural ties to this region, not just one family. The California Native American Heritage Commission identifies multiple Gabrieleno-affiliated Tribal governments for consultation in the Los Angeles Basin. That reflects the complex history of our people and should be recognized by the City. Only weeks ago, the City honored the San Gabriel Gabrieleno Band of Mission Indians through the From Rails to Trails resolution, recognizing our enduring relationship to this landscape. We were grateful for that recognition. It is therefore concerning that today's resolution, involving the same ancestral landscape, recognizes only a single organization without acknowledging the broader Gabrieleno community. This is about more than one resolution. City Council actions become part of the public record and are often relied upon by government agencies, developers, educational institutions, and future policymakers. The language adopted today could shape how Indigenous representation is understood for years to come. For many years, our Tribe has worked in partnership with the City of Los Angeles on the City Land Acknowledgment, Indigenous Peoples' Day, Native American Heritage Month, educational initiatives, and through consistent participation on the Los Angeles Native American Indian Commission. We believe those relationships have always been strongest when they reflect inclusion rather than exclusion. We respectfully ask that you amend this resolution to recognize that this sacred landscape is significant to all Gabrieleno Tribal governments with documented ties to Tovaangar. Doing so would honor the complexity of our shared history while ensuring fairness, equity, and meaningful representation.
