Comments for Public Posting: I support councilwoman Ysabel Jurado's resolution to object the Water Reuse Project proposed at San Pascual Park. Southern California needs more long-term and sustainable nature-based solutions and diversification of our water portfolio. The negative impacts of the Water Reuse Project outweighs the benefits as outlined in Ysabel Jurado's resolution.

Comments for Public Posting: I support Councilperson Ysabel Jurado's resolution to oppose the creation of the Arroyo Seco Water Reuse project which will destroy much of San Pascual park. The green space along the Arroyo Seco should be preserved, and the perspective of the Gabrieleno Band of Mission Indians who understand this land to be sacred should be respected and included in all decisions pertaining to the Arroyo Seco. Thank you.

Comments for Public Posting: I support CD14 Councilwoman Ysabel Jurado resolution. I oppose the destruction of San Pascual park, and the giving away of LA parkland for the water reuse project. The environmental damage resulting in the destruction of this forest cannot be mitigated by fences. This is a scared land for the Gabrieleno Band of Mission Indian Kizh Nation. They have requested full avoidance of the site.

Comments for Public Posting: I support this resolution and would like to see this park saved in our community. The importance of trees is a huge factor and also protecting our environment and air with the current climate change. Thank you!
