Comments for Public Posting:	To Public Safety Committee Members, Three years ago I moved to my current neighborhood. The rate of home burglary crime was soaring when I arrived. But through the efforts of a great many neighbors, my community organized and funded the purchase and installation of security cameras so that our local police could solve our local crimes and help keep our property safe. The home burglary crime rate in our neighborhood has dropped, and a number of thieves have been caught — the cameras have helped LAPD tremendously. Please do not take away LAPD's ability to use Flock Safety ALPR cameras. I strongly support keeping the cameras in place. Thank you for considering my point of view as you make your decisions. Respectfully, David Baker resident of City Council District 5
