**Comments for Public Posting:** As a citizen of LA and aware of the condition at all of our shelters, I think it's a no brainer to support this investment. It is truly so upsetting that we have let basic care of our animals fall to the waste side. If you do anything right it would be to accept and pass this initiative. So many innocent animals have either lost their lives in our shelters or are living in a state of neglect under our local government. If you choose to do one thing with some semblance of morality, it would be to support and pass this initiative.
