Comments for Public Posting:	I join a growing public demand for the permanent closure of the Boyle Heights Lineage Logistics facility and the immediate removal of similar businesses along existing industrial corridors in the Boyle Heights Community Plan area, including along the Los Angeles River. I urge the Committee to approve this motion, which will withhold issuance of any rebuild or reconstruction permits for the Lineage Logistics facility and prepare an ICO prohibiting issuance of permits for similar facilities in Boyle Heights. I also urge the Committee to consider withholding the issuance of any rebuild or reconstruction permits for this facility and similar facilities in Boyle Heights that are located near residential neighborhoods or other sensitive uses permanently. This neighborhood has been through enough. It would be irresponsible to allow this negligent company to rebuild in this neighborhood.

Comments for Public Posting:	Don’t allow Lineage to rebuild. If you have doubts come sleep or live in the neighborhood to understand us. Even firefighters said this type of warehouse is difficult to combat when they have fires.

Comments for Public Posting: My name is Tania Ramon and I am a youth stakeholder in Boyle Heights. I join a growing public demand for the permanent closure of the Boyle Heights Lineage Logistics facility and the immediate removal of similar businesses along existing industrial corridors in the Boyle Heights Community Plan area, including along the Los Angeles River. I urge the Committee to approve this motion, which will withhold issuance of any rebuild or reconstruction permits for the Lineage Logistics facility and prepare an ICO prohibiting issuance of permits for similar facilities in Boyle Heights. I also urge the Committee to consider withholding the issuance of any rebuild or reconstruction permits for this facility and similar facilities in Boyle Heights that are located near residential neighborhoods or other sensitive uses permanently. Lineage Logistics' refusal to take responsibility for this environmental disaster and their decision to direct resources to future plans instead of meeting the moment by supporting impacted residents, workers, and local businesses, is unacceptable. Our community deserves the permanent closure of the Boyle Heights Lineage Logistics facility and other similar businesses. I demand that Lineage Logistics be permanently removed from our neighborhood and demand real accountability from Lineage Logistics.

Comments for Public Posting:	Good afternoon, I have lived and worked in Boyle Heights for many years. And have been directly impacted by current man made disaster that occurred a few weeks ago. Lineage Logistics has caused tremendous damage in our communities and surrounding communities. I've seen firsthand how this fire has caused issues like health, habitability and debt. Lineage Logistics' refusal to take responsibility for this environmental disaster and their decision to direct resources to future plans instead of meeting the moment by supporting impacted residents, workers, and local businesses, is unacceptable. I urge the Committee to approve this motion. However, I also urge the Committee to consider withholding the issuance of any rebuild or reconstruction permits for this facility permanently. We do not need anymore environmental disasters in our communities.

Comments for Public Posting: This summer has been a nightmare for the residents of the immediate and the area surrounding Lineage. My family has both a 100 year old elder and a 2 year old child and ranges from 4 blocks to one mile away from the Los Palos site. Since the fire began I have been running air conditioners and air purfiers constantly, at my own home a mile away and since I am not in immediate proximity to the warehouse, my own expense. My parents, only 4 blocks away from the site have had to keep my 100 year old grandmother indoors as she is no longer able to sit out on the porch as she used to. This had been her only outdoor access due to mobility issues that come with being 100 years old. Lineage has plagued our summer, not only with a putrid smell that enters our homes through not only open windows but through cracks in doors at all hours, but with dead rats in the street and an exponential rise in flies and roaches in the area. Residents even closer to the warehouse undeniably have it so much worse. Please do not allow them to have another chance to do even more damage to a community that carries the trauma of so much environmental injustice in our bodies and minds.

Comments for Public Posting:	I support the growing public call to permanently close the Boyle Heights Lineage Logistics facility and remove similar businesses located along existing industrial corridors within the Boyle Heights Community Plan area, including areas near the Los Angeles River. I encourage the Committee to approve this motion to prevent any rebuild or reconstruction permits from being issued for the Lineage Logistics facility and to develop an ICO that would prohibit permits for similar facilities in Boyle Heights. I also urge the Committee to consider permanently denying rebuild or reconstruction permits for this facility and other similar businesses in Boyle Heights when they are located near residential communities or other sensitive areas.

Comments for Public Posting:	Dear Councilmembers, Council File Number: 26-0906-S10 Lineage Logistics' refusal to take responsibility for this environmental disaster and their decision to direct resources to future plans instead of meeting the moment by supporting impacted residents, workers, and local businesses, is unacceptable. I urge the Committee to approve this motion. However, I also urge the Committee to consider withholding the issuance of any rebuild or reconstruction permits for this facility permanently. Council File Number: 26-0906-S11 I urge the Committee to approve Councilmember Jurado’s motion to impose substantially stronger financial penalties on negligent businesses like Lineage Logistics. However, I also demand that the City of Los Angeles take actionable steps to remove polluting and negligent corporations from Boyle Heights.

Comments for Public Posting: I have been coughing for weeks, and it started on the day of the Lineage fire. I felt sick for days and the weeks that followed I had a dry persistent cough that has yet to fully resolve. I live a little over one mile away. I cannot begin to fathom the decline of health for others living in close proximity. Not only has Lineage failed its neighbors but IT MUST NOT BE ALLOWED TO RESUME it's business in our neighborhood. Lineage must leave BH. I join a growing public demand for the permanent closure of the Boyle Heights Lineage Logistics facility and the immediate removal of similar businesses along existing industrial corridors in the Boyle Heights Community Plan area, including along the Los Angeles River. I urge the Committee to approve this motion, which will withhold issuance of any rebuild or reconstruction permits for the Lineage Logistics facility and prepare an ICO prohibiting issuance of permits for similar facilities in Boyle Heights. I also urge the Committee to consider withholding the issuance of any rebuild or reconstruction permits for this facility and similar facilities in Boyle Heights that are located near residential neighborhoods or other sensitive uses permanently!!! Lineage FUERA!!!!!
