Council File No: 26-0906-S9

Comments for Public Posting: I urge LA City Council members to support this motion. As a Boyle Heights Stake holder, we need the Lineage warehouse fire recovery effort to be a priority of all of our council members. Boyle Heights residents, and those in the surrounding communities, have been negatively impacted by the negligence of this corporation and by the lack of preparedness by the city to deal with this crisis. Boyle Heights has been a historically neglected community that has dealt with environmental racism caused by our government and the corporations that regularly cause climate crisis' in our community. LA City Council has the opportunity to do right by the residents of Boyle Heights and support this motion to provide the community the relief it desperately needs. Please vote YES!
