Council File No: 26-0906

Comments for Public Posting: Dear Councilmembers, Many residents — myself included — have been exposed to toxic smoke resulting from the warehouse fire in Boyle Heights. The smoke has reached my neighborhood, further polluting air that is already contaminated and making conditions even more hazardous during this extreme heat. This incident has disproportionately affected working?class households, and it reflects yet another example of the environmental injustice our communities continue to face. I urge the City Council to initiate an independent investigation into the cause of the warehouse fire and to take all possible actions to protect and support the residents who have been exposed to toxic smoke. Our communities deserve accountability, transparency, and immediate relief. Thank you for your attention to this urgent matter.
