Council File No: 26-0936

Comments for Public Posting: My name is Henry Perez. I am the Executive Director of InnerCity Struggle. We have been supporting the Boyle Heights and East LA communities in the aftermath of the Lineage warehouse fire and the crisis that it has created. I want to urge the council members to vote YES on this motion by Council member Jurado. The Boyle Heights community has dealt with environmental racism for decades due to government and corporate negligence. LA City has the opportunity to change this reality for our community by supporting motions such as these. The city needs as many services and resources as possible directed to Boyle Heights to rectify the situation that has been caused by both corporate and government negligence. Please vote YES!
