Comments for Public Posting: Vote NO on abolishing the police. We don't have enough police to protect tax paying citizens, children, and senior citizens. Stop destroying Los Angeles with these demonic tactics.

Comments for Public Posting: Dear City Councilmembers, I am writing to express my deep concern that the Los Angeles Police Department (LAPD) and individuals aligned with them are attempting to undermine the democratic process by spreading misinformation and disinformation online. The repetition of coordinated talking points raises serious questions about whether public resources are being used to influence both the City Council and the public. Good government reform advocates have repeatedly warned that the LAPD may be using taxpayer money to shape political outcomes rather than focusing on public safety. We have seen how misinformation can be used to manipulate public perception and create division within our city. I strongly urge the City Council to pass the proposed charter reform and establish direct oversight and authority over the LAPD. This measure is essential to ensuring accountability, transparency, and democratic control over a department that has too often operated without sufficient checks. We cannot allow the LAPD to continue exerting outsized influence over city governance. Their pattern of behavior demonstrates the urgent need for stronger oversight. Mayor Bass has not fulfilled her responsibility to defend the public interest, and the police department's conduct makes clear that meaningful reform is overdue. Thank you for your attention to this critical matter. Sincerely, Good Government Advocates
