Council File No: 26-1100-S17

Comments for Public Posting: Vote yes to give City Council oversight over police department. The Los Angeles Police Department is a pariah entity that is wasting away the city's funds rather than practice restraint and standardize non violent detainment of suspects. Billions of dollars of the city budget are wasted on payouts due to the liability that LAPD personnel incur. Please vote yes to have more control over the police department to better organize public safety that meets the needs of the city.
