Comments for Public Posting: I support relief for property owners impacted by the January 2025 Palisades Fire. If someone has to sell a damaged or destroyed property after a disaster, adding the Measure ULA tax on top of that loss may feel unfair and punitive. I also do not think sympathy should only apply to people who lived there full time. Owners of rental properties, second homes, investment properties, or properties held through an LLC may have also suffered serious financial harm. That said, the public deserves clear information. The City Attorney report says the exemption would apply whether or not the property was owner occupied, and “residential property” is left undefined. I respectfully ask Council to make the ballot language clear and provide a fiscal impact analysis so voters understand who qualifies and how much revenue may be affected.
