Comments for Public Posting: The Franklin Fields recreation area, which is Baseball is the area that is occupied and used by boys and girls from all over the San Fernando Valley since the damage done by that fire and half of the parking lot that's been lost. It's caused a great deal of inconvenience as well as created a larger liability from all these little children having to walk where all these cars are moving with the potential of getting harmed this is a public recreation area that should be fixed by the city and or whoever is concerned so that this issue in this bridge can be removed and the area can be restored to its original purpose of fun and baseball for boys and for girls.
